Re: OBW-397

1. has done a fine job of reporting the involved antics of this imaginative DP. The description of [] operations throughout a complete case is very interesting, although not encouraging. The difficulties of calling in other [] elements to support a [] operation is well pointed out in the attempted liaison with []
2. The report gives a good insight into Soviet repatriation efforts and we agree that this might be a useful method for manipulating them in [] However, it remains unclear how JEFREMOVAS contacted the Soviets and what bona fides he offered to enlist their aid. It is not intended that these points be followed up now that this case is closed, but we believe they should be kept in mind if use of a similar contact is contemplated on if JEFREMOVAS reappears in another operation.
3. We would be interested in any further information which [] may obtain regarding the Pension Stella (Para 7 of reference) and Dr. Soumenkoff (para 43a).
